

If-else C Programming

Input

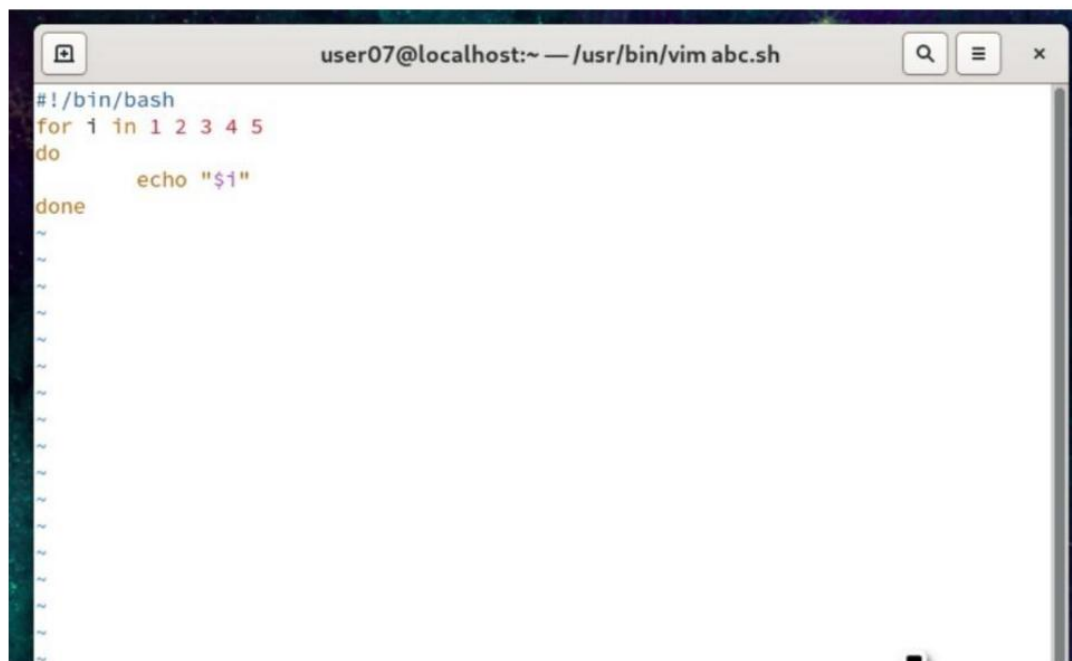

```
user07@localhost:~/if — /usr/bin/vim if-else.c
#!/bin/bash
echo "enter number"
read number
if [ $number -ge 0 ]
then
    echo "It is a positive number"
else
    echo "It is a negative number. "
fi
~
~
~
~
```

Output

```
user07@localhost:~/if
[user07@jannani ~]$ ls
Ab          c          Documents  lora       Public     Templates
ab.sh       Cpu        Downloads  Music      sample.txt Videos
a.out       'CPU Scheduling' fcfs.c     pet        Scheduling
bankers     Desktop    if         Pictures   self.sh
[user07@jannani ~]$ cd if
[user07@jannani if]$ vi if-else.c
[user07@jannani if]$ ls
if-else.c
[user07@jannani if]$ vi if-else
[user07@jannani if]$ ls
if-else  if-else.c
[user07@jannani if]$ vi if-else.c
[user07@jannani if]$ sh if-else.c
enter number
41
It is a positive number
[user07@jannani if]$ sh if-else.c
enter number
-89
It is a negative number.
```

For loop

Input

A terminal window titled "user07@localhost:~ — /usr/bin/vim abc.sh" showing a script in vim. The script is a for loop that iterates over the numbers 1 to 5 and echoes each number. The script content is as follows:

```
#!/bin/bash
for i in 1 2 3 4 5
do
    echo "$i"
done
```

Output

Output

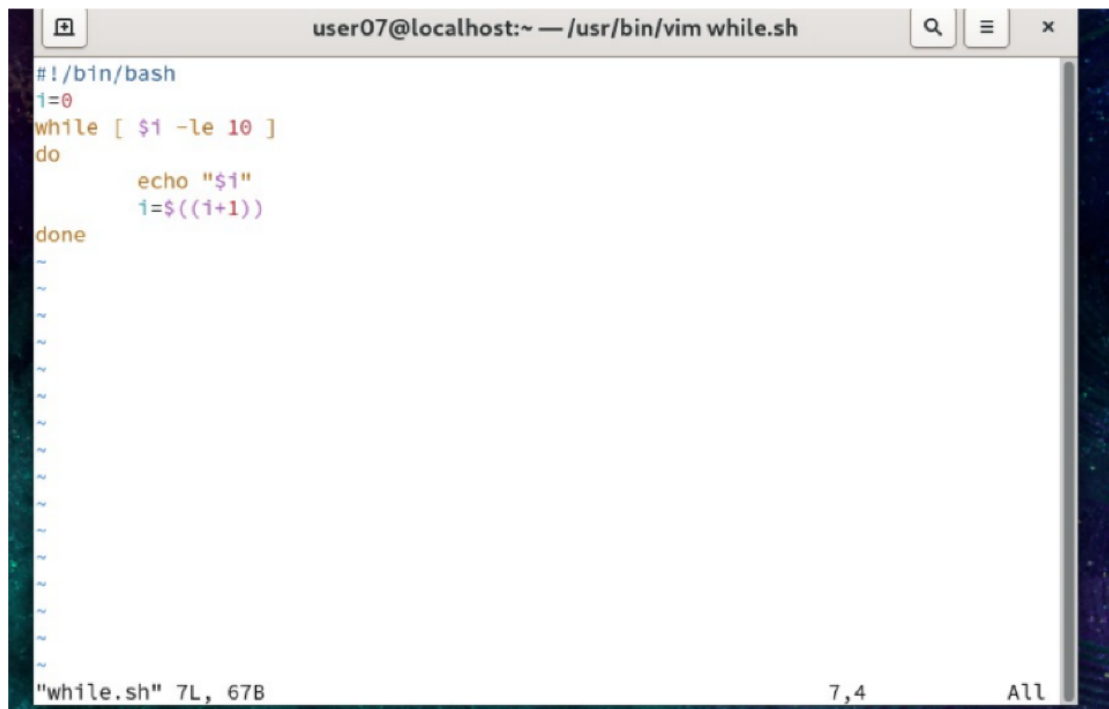

A terminal window titled "user07@localhost:~" showing the execution of the script. The output is as follows:

```
bash: rc: command not found...
[user07@jannani ~]$ vi abc.sh
[user07@jannani ~]$ sh abc.sh
1
2
3
4
5
[user07@jannani ~]$
```

While loop

Input

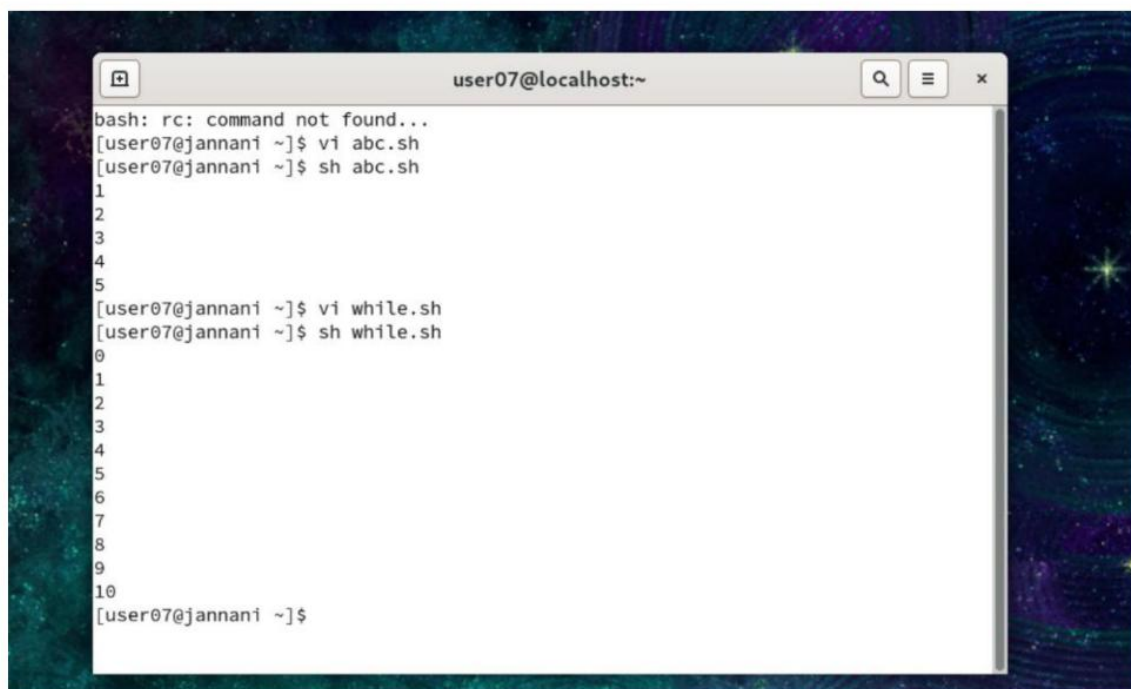

The screenshot shows a vim editor window titled "user07@localhost:~ — /usr/bin/vim while.sh". The script content is as follows:

```
#!/bin/bash
i=0
while [ $i -le 10 ]
do
    echo "$i"
    i=$((i+1))
done
```

The status bar at the bottom indicates "while.sh" 7L, 67B, with a cursor at line 7, column 4.

Output

The screenshot shows a terminal window titled "user07@localhost:~". The output of the script execution is as follows:

```
bash: rc: command not found...
[user07@jannani ~]$ vi abc.sh
[user07@jannani ~]$ sh abc.sh
1
2
3
4
5
[user07@jannani ~]$ vi while.sh
[user07@jannani ~]$ sh while.sh
0
1
2
3
4
5
6
7
8
9
10
[user07@jannani ~]$
```
